STANDARD EQUIPMENT

SUPPLIED

Scuba tanks are secured to the aluminium benches at the stern of the vessel using tank clasps.

Dri-Dek anti-skid flooring used throughout the vessel.

Top quality catamaran furniture used throughout the vessel.

Very comfortable, marine grade PVC furnishings add a great look and feel to the catamaran and are durable and easy to maintain. The extra comfort provided will be much appreciated by your patrons.

We can supply clients with any make/model of outboard engine they prefer. We recommend twin 250hp engines but if you prefer to use your own engines you are of course free to do so.
